

FIND YOUR SIZE

3D PRINTED JEWELRY ©2013 - ANGULAR.BE

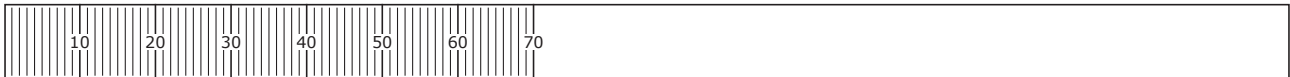

ONE

To determine your ring size is to use a professional ring sizer. You can find it in your local jewelry shop. Once you know your size, you can easily find your corresponding size with the size chart shown below.

ANGULAR ring size	US size	UK size	inside circumference	inside diameter
size XS	4¾	J	49 mm	15,50 mm
size S	6	L½	52 mm	16,50 mm
size M	7¼	O	55 mm	17,50 mm
size L	8½	Q½	58 mm	18,50 mm

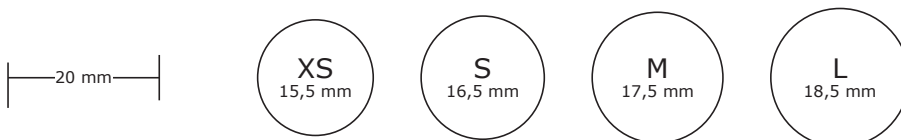

TWO

Or, you can wrap a piece of paper around your finger VERY TIGHTLY (important) and mark the paper where it overlaps. Measure the length of the section and compare it with the chart found above to find your size. Before doing this, please make be sure that the ruler below measures 70 millimeters, when printing for accurate sizing.

THREE

Alternatively, you can match one of the size circles with the inside of one of your rings. Before doing this, please make be sure that the ruler below measures 20 millimeters, when printing for accurate sizing.

SIZE IN BETWEEN?

At an additional cost of € 2,50 we will produce for u a custom sized ring. Please follow one of the above mentioned instructions to determine your size. When ordering, choose 'custom size'. We will get in touch to ask about your size.
